

**Trimble is now offering a 3 Year  
ViewPoint RTX subscription for \$500. This  
offer is for the NAV-500 receiver only.**

Paired with any GFX series display, the NAV-500™ guidance controller is an affordable precision solution capable of receiving corrections from multiple GNSS satellite constellations. Get sub-meter repeatable accuracy and full-farm coverage at a great price to use during tillage, broad-acre seeding, spraying and harvest.

Trimble RTX® is our exclusive, advanced precise point positioning technology that provides real-time corrections. Experience true mobility working without the constraints of a local base station or VRS network, with high-level accuracy delivered to you worldwide via satellite or cellular/IP. Trimble ViewPoint RTX helps you achieve the quality standards you need in less time for tasks such as collecting field information and managing assets.

All orders under the standard 3 year part number are at \$500.
